

# DEV HARI OJHA

9569054110 ♦ [ojha6773@gmail.com](mailto:ojha6773@gmail.com) ♦ [Github](#) ♦ [devfolio](#)

## Skills

---

**Programming Languages** : Python, Javascript, Typescript, SQL

**Frameworks & Databases** : NextJS, ReactJS, TailwindCSS, NodeJS, ExpressJS, MangoDB, Prisma

**DevOps & Tools** : Docker, Linux, Git

**AI / Emerging Technologies** : MCP Server, RAG, Langchain

## Projects

---

### NotesBuddy- AI Powered Notes Sharing Platform

A Notes Sharing Platform where users can read notes, give quizzes, revise from flashcards, execute code snippets, and also have PYQs, more. Built with Next.js and backed by MongoDB with Payment Gateway.

[Live Demo](#)   [Source Code](#)

### Devfolio- AI Powered Portfolio Maker Platform

AI-powered portfolio generator that automatically creates beautiful developer portfolios from GitHub profiles with stunning glassmorphism design. Built using Next.js with TypeScript, featuring PostgreSQL with Prisma ORM for data management, Groq AI for AI features, Better Auth for authentication, and GitHub GraphQL API integration.

[Live Demo](#)   [Source Code](#)

### BaatCheet- Ephemeral Secure Chat

Private, self-destructing chat rooms that disappear after 10 minutes. No accounts, no history, just secure conversations. Built with Next.js and React using TypeScript, styled with Tailwind CSS, enabling real-time communication via Socket.io on Node.js, and deployed on Vercel.

## Academics

---

**Khwaja Mohiuddin Language University, Lucknow**

Bachelor of Technology in Computer Science and Engineering

**CGPA - 8.35**

(2023 - 2026)

## Experience

---

### IBM SkillsBuild

It is an 8-week fully online program designed to provide students and fresh graduates with practical experience in Artificial Intelligence, Machine Learning, and Cloud Computing.

### Hacktoberfest 2025

Contributed to open-source projects during Hacktoberfest 2025, focusing on enhancing documentation, fixing bugs, and implementing new features.

### Agentic AI Hackathon

Participated in the Agentic AI Hackathon 2025, where I contributed to developing an AI-powered platform designed to personalize learning experiences based on diverse student learning styles.

### Bhartiya Antariksh Hackathon

Built an AI-powered chatbot at the Bhartiya Antariksh Hackathon 2025, aimed at enhancing space-related query assistance and real-time information delivery.
